Article title: On the monophyly of *Porrhothele antipodiana* (Porrhothelidae: Mygalomorphae) and a new species of *Porrhothele* from Banks Peninsula

Authors: Shaun T, Mary MR, Steven AT, Phil JS.

Journal: *New Zealand Entomologist*

The published article contained several layout issues involving table placement, formatting, and italicization. Specifically, the term *Blanda* in Table 1 required italicization. Figure 2 has been moved from page 8 to page 7. Tables 3, 4, and 5 have been repositioned to page 11, and Tables 6, 7, and 8 now appear on page 12. Additionally, Tables 4–8 have been reformatted to match the style of Table 3.

All corrections have now been implemented, and the updated version has been published.
