Bekhzod Egamberdiev is a research associate in the German-Uzbek Chair on Central Asian Agricultural Economics (GUCAE), International Agriculture University and Department Agricultural Markets at the Leibniz Institute of Agricultural Development in Transition Economies (IAMO), Halle, Germany. His research interests include food security, food and agricultural resilience, and empowerment in agricultural production.

Ihtiyor Bobojonov is a research associate in the Department Agricultural Markets at the Leibniz Institute of Agricultural Development in Transition Economies (IAMO), Halle, Germany. He mainly carries out research on the impact of supply chain transformation on the welfare of agricultural producers. Furthermore, he investigates the role of agricultural insurance in agricultural sector development, and analyzes possible options to improve the performance of insurance mar-

kets. He is coordinator of the International Agricultural Economics Chair at the Tashkent State Agrarian University and co-coordinator of the Insurance Lab at the Tashkent State Economic University.

Lena Kuhn is a senior researcher in the Department Agricultural Markets at the Leibniz Institute of Agricultural Development in Transition Economies (IAMO), Halle, Germany. Her research focus is on sustainable rural development and agricultural transformation, with a special attention to risk management, innovation adoption and poverty alleviation and a regional emphasis on China and Central Asia.

Thomas Glauben is the Director of the Leibniz Institute for Agricultural Development in Transition Economies (IAMO) and a full Professor at the University of Halle. He studied agricultural economics at Kiel University, where obtained the doctorate and the habilitation. He is a member of several national and international academic and policy-related advisory and management bodies. Glauben has assumed short-term assignments with international institutions including The World Bank and FAO. His work has been

published in numerous peer-reviewed journals. He has been i.a. awarded by the Tashkent State Agrarian University with the Honorary Doctoral Degree (Dr. h.c.) and by the *Stifterverband für die Deutsche Wissenschaft* and the *Deutsche Forschungsgemeinschaft* for an outstanding project in Agricultural Sciences. His areas of interest include agricultural and food economics, development economics and econometric methods.

Isabel Lambrecht is a Research Fellow and acting Country Program Manager of Tajikistan in the Development Strategies and Governance Unit, based in Dushanbe, Tajikistan, with a research focus and publication record on land tenure and women's empowerment. She employs both quantitative and qualitative research methods and is experienced in both data collection as well as econometric analysis of survey data. At IFPRI, she has been posted to Ghana, where she conducted research on land

tenure and women's empowerment, and to Myanmar, before moving to Tajikistan. Isabel obtained her PhD in Agricultural Economics from KU Leuven University, Belgium, focusing on gender and integrated soil fertility management in Eastern Democratic Republic of the Congo.

Kamiljon Akramov is a Senior Research Fellow in IFPRI's Development Strategies and Governance Unit. He conducts research on agriculture, food security, and development policy issues using applied econometric analysis. His primary areas of interest are institutional change, agricultural development, and food security in Central Asia. His research also focuses on governance, aid effectiveness, decentralization, and efficiency of service delivery in transitional and developing countries. Before joining

IFPRI, Kamiljon was a doctoral fellow at the Pardee RAND Graduate School where he obtained his PhD in Economic Policy Analysis, a consultant for the Asian Development Bank on governance and regional cooperation, and a director of the Monetary Policy Research Center at the Central Bank of Uzbekistan. He also holds a master's degree in Development Economics from Williams College, Massachusetts.
