

IEEE/CAA JOURNAL OF AUTOMATICA SINICA

A PUBLICATION OF THE IEEE AND CHINESE ASSOCIATION OF AUTOMATION

JANUARY 2026

VOLUME 13

NUMBER 1

IJASJC

(ISSN:2329-9266)

PERSPECTIVE

Increasing the Response Speed Without Redesigning the System: A Reference Input Scheduling Approach
..... *Z. Lin* (1)

REVIEWS

Networked Predictive Control: A Survey
..... *Z.-H. Pang, T. Mu, Y. Yu, H. Guo, G.-P. Liu, and Q.-L. Han* (3)

Deep Learning for Video Summarization: Systematic Review, Challenges and Opportunities
..... *Q. Yu, Z. Wang, G. Wei, and H. Yu* (21)

PAPERS

A Further Study on Terminal Sliding Mode Control for Nonlinear Systems
..... *Z. Sun, Z. Li, B. Chen, Y. Zhou, J. Zheng, and Z. Man* (43)

Offline Generalized Actor-Critic With Distance Regularization
..... *H. Feng, Y. Cheng, and X. Wang* (57)

Fault-Tolerant Control Achieving Prescribed Tracking Accuracy Within Given Time for Euler-Lagrange Systems
Under Unknown Actuation Characteristics and Fading Powering Faults *J. Su and Y. Song* (72)

Indefinite Linear-Quadratic Mean-Field Game of Regime-Switching System
..... *T. Chen, K. Du, and Z. Wu* (83)

Attack-Resilient Distributed Nash Equilibrium Seeking for Networked Games Under Unbounded FDI Attacks:
Theory and Experiment *Z. Feng, Z. Shi, X. Dong, G. Hu, and J. Lv* (98)

Global Adaptive Event-Triggered Designated-Time Stabilization of Uncertain Nonlinear Systems
..... *J.-J. Li, Z.-Y. Sun, C. Wen, and C.-C. Chen* (110)

Novel Finite-Time Adaptive Fuzzy Fault-Tolerant Control for Fractional-Order Nonlinear Systems and Its
Applications *X. You, S. Dian, B. Guo, Q. Xiao, Y. Zhu, and K. Liu* (123)

Switching-Like Sliding Mode Security Control Against DoS Attacks: A Novel Attack-Related Adaptive Event-
Triggered Scheme *J. Wu, Z. Cao, E. Tian, and C. Peng* (137)

Neural Adaptive Sliding-Mode Control of Vehicular Cyber-Physical Systems With Uniformly Quantized
Communication Data and Disturbances *Y. Zhao, M. Li, Z. Liu, L. Liu, S. Wen, and L. Ding* (149)

LMAdam: Enhancing Adam via Linear Multistep Discretization
..... *L. Chen, L. Wang, L. Jin, and J. Wang* (161)

Learning Laws for Deep Convolutional Neural Networks With Guaranteed Convergence	<i>S. Li and C. Cheah</i>	(170)
On the Use of the Nelder-Mead Simplex Method in Control Design and Systems Theory	<i>L. Menini, C. Possieri, and A. Tornambe</i>	(186)
ADAPT: A Model-Free Adaptive Optimal Control for Continuum Robots	<i>H. Fang, S. Yuan, H. Ren, S. He, and S. S. Cheng</i>	(205)

LETTERS

Motion Planning of an Autonomous Underwater Vehicle via the Integrated Design of Detection, Communication and Control	<i>T. Guo, J. Yan, X. Yang, T. Zhang, and X. Guan</i>	(218)
Dual Channel Graph Convolutional Networks via Personalized PageRank	<i>L. Lin and X. Luo</i>	(221)
Efficient Dataset Generation for Stacked Meat Products Instance Segmentation in Food Automation	<i>H. Pham, A. Le, P. Malvido-Fresnillo, S. Vasudevan, and J. Martínez Lastra</i>	(224)
Tensor Low-Rank Orthogonal Compression for Convolutional Neural Networks	<i>Y. He and X. Luo</i>	(227)
A Novel Distributed Controller Design for Robust Global Coordination of MASs With Heterogeneous Saturation	<i>X. Wang and S. Zhu</i>	(230)
Single-Dimensional Encryption Against Stealthy Attacks on Stochastic Event-Based Estimation	<i>J. Shang, D. Zhao, H. Zhang, and D. Shi</i>	(233)
Interpretable and Reliable Soft Sensor Development in Industry 5.0	<i>L. Cao, J. Su, F. Yang, Y. Cao, and B. Gopaluni</i>	(236)
